EZflow®
CONTINUOUS NEBULIZERS

LEARN MORE

About

Breathing new life into proven therapy through the benefits of Continuous Nebulization. The EZflow® / EZflow MAX® feature a very efficient small volume reservoir which attaches directly to an aerosol mask eliminating the need for pole brackets and aerosol tubing.

Advantages

- Continuous medication delivery to patients for up to 4 hours with EZflow® and 1.5 – 2 hrs with EZflow MAX®.
- The nebulizer design with the reservoir attached directly to the mask reduces rainout and subsequent inadequate dosing issues.
- Higher concentrations of medication, up to 9.1 mg/hr of Albuterol.
- A spill proof design helps to eliminate waste and cleanup.
- Quick and easy setup.
- Easy to refill.

EZflow®
Continuous Nebulizer
#10-32001
(25/Box)

EZflow MAX®
Continuous Nebulizer
#10-32004
(25/Box)

Clinical Use

- Allows up to 4 hours of continuous aerosol inhalation therapy with a small volume nebulizer.
- Eliminates the need for aerosol tubing, IV pole and bracket.
- More comfortable for patient.
- Optimal drug delivery for entire treatment.
- EZflow® minimizes medication waste, ideal for ventilator patients.
- Helps enhance oxygen delivery.
- Helps eliminate cleanup and waste.
