# ShurSleeve®

LEARN MORE

## About

ShurSleeve is a durable and protective housing system designed to organize and safeguard anesthesia cables and hoses in operating rooms and patient care areas. Made from anti-bacterial, microbial-resistant, and fire-retardant fabric, it helps prevent trip hazards, reduces hose entanglements, and simplifies cleaning. The standard ShurSleeve comfortably holds up to five hoses of any length, while the ShurSleeve Mini® is ideal for protecting smaller cables in patient rooms and labs by eliminating tangled cords and safeguarding expensive equipment.

## Advantages

- **Enhanced Safety** – Reduces trip hazards and hose entanglements in the operating room and patient care areas.
- **Protects Equipment** – Shields expensive anesthesia cables, hoses, and patient monitoring cords from damage.
- **Easier Cleaning** – Streamlines the cleaning process by enclosing multiple cables in a single, wipeable sleeve.
- **Anti-Bacterial & Microbial Resistant** – Made from materials that help maintain a hygienic environment.
- **Fire Retardant** – Provides an added layer of protection in critical care settings.
- **Customizable** – Available in various colors and lengths to match institutional preferences.
- **Organized Workspaces** – Keeps cables and hoses neatly bundled, improving workflow efficiency.
- **Reduces Maintenance Costs** – Minimizes wear and tear on medical gas hoses and power cords, extending their lifespan.
- **Improved Footprint & Workspace Satisfaction** – Eliminates tangled cords near patients, creating a more comfortable experience and maneuverability for staff.
- **Easy Installation** – Replaces the need for braiding or zip-tying hoses, making setup quick and simple.

COLOR OPTIONS

**BLACK, NAVY, RED, ROYAL BLUE, GREY**

**BEFORE**

**AFTER**

## Clinical Use

- **Operating Rooms** – Organizes anesthesia hoses and power cables, reducing trip hazards.
- **ICU & Patient Rooms** – Prevents tangled monitoring cables, making patient access easier.
- **Emergency Departments** – Secures vital equipment cables for quick access and safety.
- **Labs & Testing Areas** – Protects delicate diagnostic cables from damage.
- **Surgery Centers** – Keeps surgical tool cables and gas hoses neatly bundled.
