

How to Use Pick N Pluck™ Foam

Pick N Pluck™ foam allows you to customize your new Pelican™ case to meet your specific needs. This innovative foam system allows you to easily customize the interior of your case according to the products you need to protect.

STEP #1

The foam is pre-scored into small cubes. Place your item on the foam and outline it with a marker or chalk.

STEP #2

Remove the foam cubes according to the shape of the outline.

STEP #3

Insert the customized foam into the case and fit your item into its cutout.
