

This set includes a quality endotracheal tube with an inserted stylette, saving time and storage space. The stylette has a low-friction coating to facilitate smooth withdrawal. It is designed with a soft distal tip to reduce the risk of trauma. The tubes are available with or without a cuff. The pilot balloon allows for tactile sense of cuff volume.

Product Specifications

- Standard 15 mm proximal connection with Murphy tip
- Sterile packaging for single-patient use
- Cuffs sized proportionally to the tube size
- Latex free
