

RescuePoint Flagship (180 Series)

Maximum Protection. Maximum Visibility.

180 Series

Emergency Defibrillator Cabinet

The **RescuePoint Flagship** represents the top tier of AED cabinet design—engineered for strength, visibility, and reliability in demanding environments. Built from 20-gauge steel with a continuous stainless-steel hinge and available in white powder-coated galvanized steel or #4 polished stainless steel, it's designed for schools, hospitals, offices, and high-traffic public facilities.

The premier choice for organizations demanding the highest level of AED readiness.

RescuePoint Flagship 180 Series

Key Features:

- Versatile Installation Options: surface, semi-recessed, and fully recessed designs.
- ADA Compliant: semi-recessed & fully recessed models meet ADA requirements; ADA-compliant surface-mount version available.
- Universal Fit: compatible with most leading AED brands.
- Durable 20-Gauge Steel Construction: corrosion-resistant white powder coat or #4 polished stainless-steel finish.
- Continuous Stainless-Steel Hinge & Chrome-Plated Handle.
- Fire-Rated Option: UL-classified 1- and 2-hour wall integrity using FSB brackets, maintaining wall rating without a double-tank design.
- Custom Branding Available: logos, graphics, and facility branding.
- Accessories Available: AED wall signage, ViewLift Riser, and TriggerLift Riser (TriggerLift compatible with SignalPro only).

Alert & Notification Options

- SignalPro Premium Alarm — adjustable 85–120 dB, four activation modes, and external relay for building security systems.
- PulseAlert Standard Alarm — compact magnetic contact alarm with 110 dB output, powered by 3×LR44 batteries (included).
- Strobe light integration available (SignalPro only).
