

SANDEL® Z-SLIDER™ PATIENT TRANSFER SHEET

STAFF & PATIENT ERGONOMICS

The #1 Best-Selling Disposable Patient Transfer Sheet

Studies show body motion injuries are the leading cause of EMS worker injuries, with back and neck injuries representing more than 30%.^{1,2}

The Z-Slider™ disposable patient transfer sheet is a no-lift device to help prevent disabling musculoskeletal injuries that can result from lifting, transferring and repositioning patients. Simply place a draw sheet, blanket, or pad between the Z-Slider™ and the patient to reduce friction and promote a smooth gliding motion to enable easier patient handling.

Use of the Z-Slider™ patient transfer sheet complies with National Institute for Occupational Safety and Health recommendations for safe patient handling for EMS workers.

KEY FEATURES & BENEFITS

- NEW! Now available in XL size to accommodate tall and bariatric patients
- No-lift patient transfer device
- Friction-reducing device used to slide a patient of any weight
- No weight limit
- Disposable to help prevent cross-contamination
- Cost-effective
- Easy to use — instructions are printed on the product
- Recyclable (LDPE 4)
- Standard Size: 33" x 39"
- XL Size: 45" x 53"

SANDEL® Anticipate the Unexpected

Developed in collaboration with clinical professionals, SANDEL products are designed to address key high-risk areas in the healthcare environment. Our signature bright orange products help reduce the risk of preventable injuries, errors and infections. SANDEL products equip caregivers with solutions to do their job safely while improving patient outcomes.
